

# SYDNEY MEDICAL CENTRE

580 George Street, Sydney. New South Wales 2000

*Sydney Opera House and Sydney Harbour Bridge just 5 minutes drive from our medical centre*

Sydney Medical Centre is situated in the centre of the Sydney CBD and is easily accessible by public transport and has a steady flow of patients. It is also within a 3 kilometre radius of 3 of the largest hospitals in New South Wales, making accessibility to specialists very feasible.

Sydney Medical Centre is also home to Australia's first bulk-billing IVF clinic which is assisting Australian couples on their family journey with over 700 babies born thus far.

Aligned with our vision of delivering integrated and coordinated care for better patient outcomes, Sydney Medical Centre houses a variety of medical services under one roof, including pathology, imaging and physiotherapy.

For GPs, this means you'll be practicing in a collaborative environment where you can work and learn alongside other health care professionals. You'll also be supported by a comprehensive team of practice management and nursing staff – so you can focus on patients, not administrative work.

*Specialist interests:* Children's health, IVF, men's health, women's health and occupational health medicine.

*Languages spoken:* English and Mandarin.
